

Implementation Procedure for Article 21: Information in Electronic Format

1. Purpose, scope, and users

To outline how VARILAG® GmbH & Co. KG can comply with Article 21 of the General Product Safety Regulation (EU) 2023/988 by making required product information available in a digital format, ensuring it is easily accessible, language-appropriate, and disability-friendly.

This procedure applies to all products placed on the market by VARILAG® GmbH & Co. KG where additional information is to be provided in an electronic format.

This procedure applies to all employees of VARILAG® GmbH & Co. KG.

2. Reference documents

General Product Safety Regulation (GPSR) (EU) 2023/988.

3. Responsibilities

Product Manager:	Ensures product information is digitally accessible and compliant.
Compliance Officer:	Verifies that all digital formats meet the linguistic and accessibility requirements of the relevant Member State.
IT Department:	Supports the technical setup of electronic information solutions, such as QR codes, websites, or mobile applications.

5. Share URL

This URL leads to the products IFU in German language:

https://www.varilag.de/wp-content/uploads/2025/01/Gebrauchsanweisung_DE_barrierefrei_re.7.3_102024.pdf

6. Embedded code

This code was created to offer an alternative access to the product's IFU and can be used for the company's website or any other electronic location where the embedded code is required:

```
<iframe
src="https://www.varilag.de/wp-content/uploads/2025/01/Gebrauchsanweisung_DE_barrierefrei_re.7.3_102024.pdf" width="100%" height="100%" frameborder="0" style="border: 0; overflow: hidden; min-height: 500px; min-width: 600px;"></iframe>
```

7. Testing and Validation Procedure for Digital Information Access

QR Code and Link Functionality:	<p>All QR codes, links, and digital solutions have been tested on multiple devices, including iOS and Android smartphones and tablets, ensuring that they direct users to the correct information in each supported language (German, French, Italian, Dutch, and English).</p>
Cross-Browser Compatibility:	<p>Display and functionality have been verified across various web browsers (Chrome, Safari, Firefox, and Edge), ensuring consistent user experience.</p>
Error Handling:	<p>Systems display appropriate error messages or prompts if links are broken or content is unavailable, providing clear instructions for next steps.</p>
Accessibility:	<p>Accessibility of the product information, warning and all safety information mentioned in the Instruction of use can be viewed in Word, PowerPoint and PDF documents.</p>
Testing Results:	<p>Detailed records, including the date, devices, browsers, screen-readers, and tools used, have been maintained for audit purposes.</p>
